## PROJECTS

### InterBook

Interbook is an internal part of intermiles project. It can be used for end to end hotel booking, the user can search hotel by name or by city. also user can cancel hotel booking anytime before checkout.

**Skills Used:** HTML, CSS, ReactJs, NextJs, Git

**Link:** <https://www.intermiles.com/hotels>

### Shop

Shop is an internal part of intermiles project. It can be used for shopping from various platform through intermiles. it gives rewards to the end user in form of intermiles which can be later used for other transactions

**Skills Used:** HTML, CSS, ReactJs, NextJs, Git

**Link:** <https://shop.intermiles.com/>

### Phone Store

This was my practice project in which i had implemented simple e-commerce site for mobile in which i had used mock json for data. In which user can select any mobile from listed products and add it to the cart.

**Skills Used:** HTML, CSS, ReactJs, MaterialUI, Git
